

## IKB64301XB Built-in Hob

### Fast and efficient cooking results

Fast, precise and controllable, Induction cooking is becoming an increasingly popular choice for the discerning chef.

### Clean as you cook

Because the surface around the pans stays cool as you cook, you can get rid of spills as you go along. Nothing gets burnt on, and there's nowhere for dirt to hide. So it's easy to keep the hob area looking pristine – even while you're still cooking.

### Zone in with intuitive controls

By turning the hob on and placing a pan down, the ActiveTouch automatically lights up, intuitively showing which zone to use. Once selected, the temperature lights up in red, while the other available options remain white. Backlit LED lights also indicate where cookware is positioned. Providing complete control when cooking.
